Sustainable Futures and the importance of Gender

Centre for Women's Studies & Gender Research, Sociology Public Lecture 2017

The 2030 United Nations Sustainable Development Goals identify gender equality as a key goal for sustainable futures. This panel of experts examines the importance of gender, globally, nationally and locally, as we develop social and political structures to achieve long term sustainability. The panellists interrogate the critical role of gender interventions as personal, communal and global.

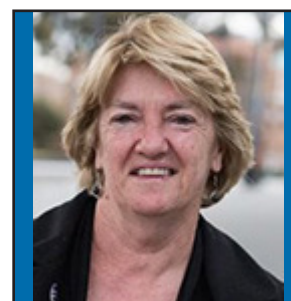

Moderator: Associate Professor Jo Lindsay, Sociology, Monash University
